

**HOPE**  
for Belper

Street Angels is a network of local organisations across the country whose common purpose is to make a difference by helping to create a better night-time culture than some of our traditional images.

## **STREET ANGELS – WHAT IS IT?**

- A visible presence in the community
- Provide care and practical support to people in need.
- Help people access support.
- Listen to people who are in distress or at risk of physical harm.
- Work with and alongside, but not in place of, police and local service providers.

## **STREET ANGELS – WHAT DO THEY DO?**

- Teams of 2 or 3 would walk agreed areas in Belper's estates between 8pm and 12pm every Friday night.
- Our focus would be the needs of young people in particular.
- Our presence would seek to reassure residents who have a negative impression of young people.
- We would be able to respond to one off events, eg. Halloween, a youth funeral, etc.

## **STREET ANGELS – WHAT WOULD IT LOOK LIKE IN BELPER?**

It is not: 'befriending' although we seek to build community relationships.

It is not: 'proselytising' although we very much hope to demonstrate the love of God.

It is not: 'the police' although we work alongside them to help create community cohesion
